

**Lublin Association for Disabled Children – “Conquerors of Dreams”  
Participate in Nationwide Competition**

I want to acknowledge one of the events that we could not have participated in, without the financial support of the PACCF.

We submitted our Winners to a nationwide historical competition. The competition consisted of working on a specialized internet platform via a computer with graphics programs. Our students worked on a multimedia board purchased through funding by the PACCF, including a desktop and laptop computer.

Without you, it would not have been possible. That’s why I was so keen on this state-of-the-art equipment, so that kids with disabilities can participate in challenging activities, just like their healthy counterparts. This is possible thanks to the PACCF. Thank you again.

Magda Wawszczak and the Lublin Association of Dream Conquerors.
