Venerable and Dear Friends at PACCF

We would like to inform you that we have completed the work related to the implementation of the photovoltaic system for heating the renovated occupational therapy building funded by your Organization.

Thanks to your generosity to us and, above all, to our residents, the occupational therapy rooms look beautiful, are equipped with the most necessary help for classes but most importantly it is warm and you can spend a pleasant time there.

When assessing the time since the start of the operation of occupational therapy rooms, we see the benefits of these classes for our wards. The most important element of these activities is the incredible willingness of our residents to participate in them. This gives us confidence that the investment made was justified. Once again, we sincerely thank you and remain in grateful prayer. Let the Lord bless you in all things. I send a scan of invoices and photos attached.

With words of respect

S. Joanna Sutowicz
